Genesis

raffinatezza, tecnologia, dinamicità

Il graduale concretarsi e organizzarsi di un'opera d'arte nella mente dell'artista, con questa filosofia nasce Genesis, sintesi perfetta di raffinatezza, tecnologia e dinamicità.

Una collezione esclusiva disegnata dall'Architetto Tiziano Dainese & Valuenet associati che si contraddistingue per il design minimale e l'essenzialità delle linee. Segno distintivo della collezione, le gambe, costruite con una fusione di alluminio lucido con tre punti d'appoggio ciascuna per il supporto del piano, che garantiscono la perfetta stabilità delle scrivanie in tutte le loro varianti. Questa è anche disponibile nella variante elegante, rifinita verticalmente in cuoio cucito a punto sella. La loro finitezza si fonde perfettamente con i piani nella versione in legno costruito in MDF (medium density fibreboard) rovere da 30 mm, verniciato in tinta wengè o naturale; in vetro temperato da 12 mm, trasparente o serigrafato; e cuoio nella totalità cromatica offerta, cucito a punto sella e rifinito nei quattro spigoli con angolari in alluminio lucido e da un filo di luce in alluminio che attraversa il piano longitudinalmente.

In linea con questo stile esclusivo sono stati realizzate cassettiere, librerie, armadi, oltre ai versatili allunghi che ripropongono le stesse finiture dei piani.

The gradual creation and definition of an artwork in the imagination of the artist: this is the philosophy of Genesis, the right synthesis of the sophistication and dynamic technology.

An exclusive collection, designed by the architect Tiziano Dainese & Valuenet associati stands out for its minimal design and essential lines.

The legs, the signature element of the collection, are built with the melted shiny aluminium and have 3 support points each for the top that ensure the perfect balance for all kinds of desks. Legs are also available in more elegant version - vertically covered saddle-stitched thick leather. These elements match perfectly the wooden tops, made in MDF (medium density fibreboard) 30 mm thick oak, dyed in wenge or natural finish; or the ones in 12 mm tempered transparent or colored glass; or even in saddle stitched thick leather and decorated with angles in polished aluminium and shiny profile that crosses the top horizontally.

Drawers, bookcases, cabinets have been made in line with this exclusive style, as well as the versatile extensions that reproduce the same finishes of the tops.

Il legno presente nelle collezioni direzionali Codutti è un materiale naturale. Per questo motivo differenze nelle caratteristiche cromatiche e di venatura presenti in ogni singolo elemento d’arredo, sono considerati segni distintivi di pregio. Il cuoio e la pelle sono materiali diversamente trattati, quindi diversa è la rifrazione della luce che determina il tono del colore. Le cuciture di pelle e cuoio possono presentare irregolarità nel tratto e variazioni di linea. Pertanto differenze di tono del colore e lievi imperfezioni nelle cuciture devono essere accettate quale segno dell’unicità e della cura artigianale del prodotto. Codutti Furniture S.r.l. si riserva di apportare qualsiasi modifica alle Collezioni presenti in questo catalogo ogni volta che lo ritenga opportuno.

The wood in Codutti’s executive collections is natural material. Any differences in terms of color and veining between individual pieces of furniture are therefore considered as characteristic and distinctive markings. Thick leather and thin leather undergo different curing processes. As a result, the surfaces refract light differently and this determines a variation in the shade of the color. Moreover, the stitching in both thick and thin leather may appear irregular. Any differences in the shade of color and slight imperfections in the stitching are the natural consequence of the craftsmanship involved in the manufacturing process, which makes each product unique. Codutti Furniture S.r.l. is entitled to bring any modifications on Collections included in this catalogue at any time, without previous notice.
