KALDEWEI FLOW

Design by Studio Aisslinger

Exclusive design shower profiles as eye-catchers in the bathroom

KALDEWEI FLOW – Modern Shower Drain Family

FLOWLINE ZERO

So easy to use: The cover of the KALDEWEI FLOWLINE ZERO with the patent-pending CLICK'N CLEAN® mechanism can be opened and closed with just one hand. For lightning-fast, hygienic cleaning – Design and function in perfect harmony.

PAGE 3 AND 4

FLOWLINE HEATRECOVERY

A game changer for cool calculators: The KALDEWEI FLOWLINE HEATRECOVERY shower channel uses the heat from the shower water to preheat the cold fresh water on its way to the shower fitting. A sustainable benefit for the environment.

PAGE 6 AND 7

KALDEWEI CLICK'N CLEAN® –

The innovation for cleanliness in the bathroom.

KALDEWEI designers in Ahlen, Westphalia have developed a cutting-edge opening mechanism, which can be operated with a flick of the wrist without any additional tools. This makes cleaning much simpler, faster and more user-friendly than any shower channel before.

The revolutionary shower profile was developed to live up to the highest requirements. The KALDEWEI FLOW gives an exclusive touch to all shower floors.

With the patent pending KALDEWEI CLICK'N CLEAN® mechanism the cover can be simply opened and cleaning is child's play.

SO EASY TO OPEN ...

FLOWLINE ZERO – Timeless Elegance

- Timeless design made of high-quality stainless steel
- Quick and easy cleaning with the KALDEWEI CLICK'N CLEAN® opening mechanism
- Individual installation by means of easy adjustment of the standard lengths 900 mm, 1,200 mm and 1,500 mm
- Floor-side overall installation height (tile, tile adhesive, sealing) of 11 mm to 28 mm, also suitable for seamless floors
- Positioning in front of the wall as well as directly on the wall is possible for wall-side overall installation height (silicone, tile, tile adhesive, sealing) of 14 mm to 20 mm
- Incl. height adjustment pieces that can be shortened for flexible adjustment of the floor-side overall installation height
- Perfectly matched to all FLOWDRAIN HORIZONTAL waste fitting complete sets

FLOWDRAIN HORIZONTAL REGULAR

- Easy and quick installation, sealing and sound insulation thanks to the All-in-One set including all accessories
- Easy-to-remove siphon for trouble-free cleaning
- Low installation height: DN50 with installation heights from 78 mm to 179 mm
- Positioning in front of the wall as well as directly on the wall is possible for wall-side overall installation height (silicone, tile, tile adhesive, sealing) of 14 mm to 20 mm
- Drainage capacity compliant with DIN EN 1253 (> 0.8l/s)
- Perfectly matched to all FLOWLINE ZERO shower profiles

FLOWDRAIN HORIZONTAL FLAT

- Easy and quick installation, sealing and sound insulation thanks to the All-in-One set including all accessories
- Easy-to-remove siphon for trouble-free cleaning
- Low installation height: DN40 with installation heights from 58 mm to 78 mm
- Positioning in front of the wall as well as directly on the wall is possible for wall-side overall installation height (silicone, tile, tile adhesive, sealing) of 14 mm to 20 mm
- Perfectly matched to all FLOWLINE ZERO shower profiles

FLOWLINE HEATRECOVERY

Showering and saving energy – it's so simple

DO YOU WANT ...

- ... A GOOD CONSCIENCE?
- ... MORE EFFICIENCY?
- ... ENJOYABLE SHOWERING?

The new KALDEWEI shower channels with heat recovery make everyone a winner! Instead of washing the valuable heat of the shower water down the drain, the KALDEWEI FLOWLINE HEATRECOVERY recovers this heat and guarantees an enjoyable showering experience with full comfort.

A heat exchanger integrated in the channel ensures efficient heat recovery. Completely in the spirit of sustainability, significantly less hot water has to be added to ensure a pleasantly warm shower temperature. This saves a lot of energy, noticeably reduces costs and reduces the CO₂ footprint. You will find a profitability calculation on the next page.

WHAT A 4-PERSON HOUSEHOLD CAN SAVE³:

The purchasing costs, for instance, for a KALDEWEI FLOWLINE HEATRECOVERY 5P can be paid back in 3 years through the energy saving alone.³

THE SAVING ...

... is equivalent to 131,100 operating hours of an energy saving lamp.

... driving 10,488 kilometres in an electric car.

... or 3.3 journeys from Frankfurt to the North Cape.

HOW IT WORKS ...

<https://qrco.de/bdIFG5>

³ Example calculation based on a 4-person household in the case of electric water heating with an electric flow heater using a KALDEWEI FLOWLINE HEATRECOVERY 5P. Assumed average showering time 8.7 minutes per person. With 326 showers taken per year and energy costs of € 0.40 per kWh with 9.2 litres water consumption per minute. Purchase costs excluding assembly costs.
